

UPDATE: FOP VEST TO RESCUE PROJECT - 4/09/10 by Frank Carter

Hello just want to let u know that I am booked for the Philippines trip for Fraternal Order of Police Vest to Rescue project.

I will be meeting with the top officials of the Philippines National Police (PNP) and visiting the police officers where equipment will be donated across the country.

We have another large shipment that will be going out hopefully in the next week of about 150,000 worth of police equipment for the police officers in Philippines who desperately need this equipment for their safety.

I again just want to thank Fraternal Order of Police District 7 Director Kevin Carlucci for all of his support and continued effort on his part.

Director Carlucci will be meeting with Sheriffs and Police agencies in Florida to present plaques to all of the departments who have graciously donated the police equipment.

The plaques are from the Philippines National Police and the PNP also sent one for the State President of the Fraternal Order of Police , James Preston, which will be presented by Director Carlucci at the June Conference.

I have been told by the PNP that no other police dept or organization has ever donated this much equipment except for the United States Military.

Frank Carter

Sent by President James Preston:

Frank,

Thanks for the update on the PNP project. I hope you have a great trip. Your project is a great credit for yourself and the Fraternal Order of Police and I am sure the Philippine Police Officers who receive the equipment will be grateful.

You demonstrate the mission and values of the Fraternal Order of Police. Thanks for your efforts. I will be looking for your story when you return.
